

Index of the papers published in / Index des articles publiés dans Atmosphere 1977 - 1963

The Royal Meteorological Society, Canadian Branch published a number of scientific papers in the period 1950 to 1959. Initiated in 1963, Atmosphere was conceived as a Bulletin of Canadian Meteorology to facilitate communication between members of the Canadian Branch. With the establishment of the Canadian Meteorological Society, in 1967, Atmosphere took on a more scientific mission. The index contains only the scientific and other substantial articles.

In 1977, the Canadian Meteorological Society became the Canadian Meteorological and Oceanographic Society, and Atmosphere changed its name to **ATMOSPHERE-OCEAN**.

La Branche canadienne de la Royal Meteorological Society a publié plusieurs articles scientifiques dans les années 1950 à 1959. Lancée en 1963, Atmosphere était un Bulletin de la météorologie canadienne voué à la communication entre les membres de la Branche canadienne. Lors de la fondation de la Société météorologique du Canada, en 1967, Atmosphere adopta une mission plus scientifique. L'index ne contient que les articles scientifiques ou de nature substantielle.

En 1977, la Société météorologique du Canada devint la Société canadienne de météorologie et d'océanographie, et Atmosphere changea son nom à **ATMOSPHERE-OCEAN**.

PUBLISHED PAPERS / ARTICLES PUBLIÉS

Volume 15 No. 4 1977

T.R. Oke EDITORIAL

Amin H. Meshal Comparison of Drag Coefficients Over Water Measured Directly and Determined by Wind Profile

E. Vowinckel and Svann Orvig The Energy Budget of the Sable Island Ocean Region

P.W. Suckling and J.E. Hay A Cloud Layer-sunshine Model for Estimating Direct, Diffuse and Total Solar Radiation

Volume 15 No. 3 1977

Brian Petrie and Peter C. Smith Low-frequency Motions on the Scotian Shelf and Slope

D.G. Wright and L.A. Mysak Coastal Trapped Waves, with Application to the Northeast Pacific Ocean

G. Samuels and P.H. LeBlond The Energy of Near-Surface Internal Waves

Volume 15 No. 2 1977

Allan H. Murphy and Robert L. Winkler Experimental Point and Area Precipitation Probability Forecasts for a Forecast Area With Significant Local Effects

H.G. Leighton The Ice Phase and the Evolution of Cloud Droplet Spectra

Harald Lejenäs On the Breakdown of the Westerlies

H.B.Kruger CLIMATOLOGICAL STATION HISTORIES - Notes and Correspondence

Volume 15 No. 1 1977

David E. Dietrich Direct Simulation of Convective Adjustment and Other Ensemble Effects

Philip E. Merilees, Pierre Ducharme, and Ghislain Jacques Experiments with a Polar Filter and a One-dimensional Semi-implicit Algorithm

G.S. Strong and E.P. Lozowski An Alberta Study to Objectively Measure Hailfall Intensity

H.W. Teunissen GLOBAL FLOW VISUALIZATION OR "THEODORE VON KÁRMÁN WINS AGAIN" - Notes and Correspondence

Volume 14 No. 4 1976

Christiane Beaudoin and Jacques Derome On the Modelling of Stationary Planetary Waves

G.A. McBean Scaling Turbulence in the Planetary Boundary Layer

T.R. Oke The Distinction Between Canopy and Boundary-layer Urban Heat Islands

John E. Hay A Revised Method for Determining the Direct and Diffuse Components of the Total Short-wave Radiation

Trevor Dickinson Seasonal Variability of Rainfall Extremes

P.W. Suckling and John E. Hay Modelling Direct Diffuse, and Total Solar Radiation for Cloudless Days

A.J.W. Catchpole and C. Ponce ACCESS TO STATION HISTORIES FOR STUDIES OF CLIMATIC CHANGE: AN APPEAL FOR IMPROVEMENT - Notes and Correspondence

Volume 14 No. 3 1976 Project Stratoprobe

P.E. Merilees FOREWARD

S.E. Bain, C.L. Mateer and W.F.J. Evans Meteorological and Ozone Data for the Project Stratoprobe balloon Flights of 8 and 22 July, 1974

T.A. Clark and D.J.W. Kendall The Measurement of Minor Stratospheric Constituent Concentrations by far Infra-red Emission Spectroscopy

J.B. Kerr and C.T. McElroy Measurement of Stratospheric Nitrogen Dioxide from the AES Stratospheric Balloon Program

W.F.J. Evans, C.I. Lin and C.L. Midwinter The Altitude Distribution of Nitric Acid at Churchill

B.A. Ridley, J.T. Bruin, H.I. Shiff and J.C. McConnell Altitude Profile and Sunset Decay Measurements of Stratospheric Nitric Oxide

W.F.J. Evans, J.B. Kerr, D.I. Wardle, J.C. McConnell and H.I. Shiff Intercomparison of NO, NO₂, and HNO₃ Measurements with Photochemical Theory

D.J. McEwan and H.T. Meredith Solar Ultraviolet Flux Measurements

M.W.P. Cann, R.W. Nicholls, W.F.J. Evans and D.J. McEwan Theoretical Simulation of Solar Ultraviolet Fluxes Measured on the 8 July 1974 Stratoprobe I Flights

R. Krishna Rao Vupputuri The Steady-state Structure of the Natural Stratosphere and Ozone Distribution in a 2-D Model Incorporating Radiation and O-H-N Photochemistry and the Effects of Stratospheric Pollutants

The "ARGOS" Spaced-based Platform Location and Data Collection System

Volume 14 No. 2 1976

Claudio Tomasi and Francesco Tampieri Features of the Proportionality Coefficient in the Relationship Between Visibility and Liquid Water Content in Haze and Fog

David Fissel, Stephen Pond and Mikio Miyake Spectra of Surface Atmospheric Quantities at Ocean Weathership P

Roger Daley, Claude Girard, John Henderson and Ian Simmonds Short-term Forecasting with a Multi-level Spectral Primitive Equation Model. Part I - Model Formulation

Roger Daley, Claude Girard, John Henderson and Ian Simmonds Short-term Forecasting with a Multi-level Spectral Primitive Equation Model. Part II - Hemispheric Prognoses and Verification

H.P. Wilson and D.B. Fraser ON SNOW DEVILS - Notes and Correspondence

H.S. Sandhu A STUDY OF PHOTOCHEMICAL AIR POLLUTANTS IN THE URBAN AIRSHEDS OF EDMONTON AND CALGARY - Notes and Correspondence

Volume 14 No. 1 1976

S. Tabata The General Circulation of the Pacific Ocean and a Brief Account of the Oceanographic Structure of the North Pacific Ocean. Part II - Thermal Regime and Influence on the Climate

Peter F. Lester Evidence of Long Lee Waves in Southern Alberta
Hilding Sundqvist On Vertical Interpolation and Truncation in Connexion with Use of Sigma System Models
A. Bootsma A NOTE ON MINIMUM TEMPERATURE AND THE CLIMATOLOGICAL DAY AT FIRST ORDER STATIONS - Notes and Correspondence
Henry W. Brandli and John W. Orndorff THE ROUND LAKE - Notes and Correspondence

Volume 13 No. 4 1975

S. Tabata The General Circulation of the Pacific Ocean and a Brief Account of the Oceanographic Structure of the North Pacific Ocean. Part I - Circulation and Volume Transports
T.J. Simons Effective Wind Stress over the Great Lakes Derived from Long-Term Numerical Model Simulations
George J. Boer and Leonard Steinberg Fourier Series on Spheres
R.R. Rogers An Elementary Parcel Model with Explicit Condensation and Supersaturation

Volume 13 No. 3 1975

Hilding Sundqvist On Truncation Errors in Sigma-System Models
Hermann Flohn and Heribert Flerer Climate Teleconnections with the Equatorial Pacific and the Role of Ocean/Atmosphere Coupling
R.P. Angle Airflow from Mustard to Fallow
P.F. Lester OPERATION LEECAT - Notes and Correspondence

Volume 13 No. 2 1975

G.A. McBean Turbulent Fluxes over Lake Ontario During a Cold Frontal Passage
Serge Clauzy, Antoine Elefterion et Philippe Sarthou Une Méthode d'étude Expérimentale "in situ" de la Zone d'échange entre les Nuages Convectifs et leur Environnement
R.L. Hawkes The 15-25 μm Barrier to Drop Growth in Warm Rain
Richard E. Peterson SNOW DEVILS - EARLY OBSERVATIONS - Notes and Correspondence

Volume 13 No. 1 1975

Alistair B. Fraser The Green Flash and Clear Air Turbulence
Michel J.E. Gauthier et Conrad East Techniques d'Échantillonnage et d'Analyse Granulométrique des Brouillards
G.S. Strong and M.L. Khandekar A Note on Fluctuations in the Normal Temperature Trend at Selected Canadian Stations

M.J. Newark The Relationship between Forest Fire Occurrence and 500 mb Longwave Ridging

Volume 12 No. 4 1974

Roger Daley Cross-Equatorial Error Propagation: A Numerical Simulation
A.J.W. Catchpole and D.W. Moodie Changes in the Canadian Definitions of Break-up and Freeze-up
Richard E. Peterson Low Level Wind Maxima and Temperature Inversions Over the Northern Great Plains
Roland List and Humfrey Melling Plume Convection Over an Urban Area as Observed by Acoustic Echo Sounding

Volume 12 No. 3 1974

Philip E. Merilees Numerical Experiments with the Pseudospectral Method in Spherical Coordinates
Steven Lambert A High Resolution Numerical Study of the Sea-Breeze Front
Hubert Allard and Jacques Derome The Adjustment of the Wind Field to Small Scale Topography in a Numerical Weather Prediction Model
H.P. Wilson A NOTE ON MESO-SCALE BARRIERS TO SURFACE AIRFLOW
Notes and Correspondence

Volume 12 No. 2 1974

P.G. Aber and C.N.H. Hall Monthly Areal Precipitation Totals from 24-hour Computer Forecasts
F.H. Fanaki and J. Kovalick Diffusion of Vehicle Exhaust Fumes
D. Yap A Preliminary Investigation of Winter Air Pollution Potential At Fort Simpson, Northwest Territories
D. Skibin COMMENT ON "TETROON STUDIES IN THE CROWSNEST PASS AREA" Notes and Correspondence

Volume 12 No. 1 1974

Joan Vyverberg Jensen A Synoptic Parameterization of the Drag Coefficient
M.A. Shapiro The Use of Isentropic Coordinates in the Formulation of Objective Analysis and Numerical Prediction Models
H.T. Beal An Operational Windchill Index
Douglas L. Golding The Correlation of Snowpack with Topography and Snowmelt Runoff on Marmot Creek Basin, Alberta

Volume 11 No. 4 1973

M.K. Thomas DEDICATION TO DR. ANDREW THOMSON Andrew Thomson: A Profile

H. Flohn Remarks on Climatic Intransitivity and the 1972 Pacific Anomaly
Bernhard Haurwitz Oscillations in a Basin of Cold Air
Gerald C. Gill The Helicoid Anemometer
R.E. Munn Secular Increases in Summer Haziness in the Atlantic Provinces
V.E. Sells and D.R. Hay Lidar Evidence of Thermal Plumes in an Urban Environment
E. Vowinckel and Svenn Orvig The Heat and Water Budgets of a Beaver Pond
Roland List and Terry L. Clark The Effect of Particle Size Distributions on the Dynamics of Falling Precipitation Zones
W.F. Hitschfeld Hail, Science and Politics
J. Stewart Marshall and Walter Hitschfeld A Source of Hail Embryos
T.L. Richards Hydrometeorology in the Atmospheric Environment Service
K.D. Hage Kelvin-Helmholtz Billows - A Visual Example
