

Canadian Meteorological and Oceanographic Society (CMOS)

www.cmos.ca

Purpose / Mission:

CMOS exists for the advancement of meteorology and oceanography in Canada

What CMOS does...

- Operates 14 Centres across Canada
- Annual Congress brings together meteorologists, oceanographers, and related disciplines to discuss issues of common interest
- Takes public positions on topics such as natural hazards, weather modification, climate change

What CMOS does...

- Presents annual awards in the fields of meteorology and oceanography
- Provides scholarships/bursaries to students at graduate and undergraduate university levels
- Provides travel bursaries of up to \$500 that are available to assist 20-30 students attending the annual Congress to give a paper on their thesis research

What CMOS does...

- Provides supplements to NSERC post-graduate scholarships
- Supports travel by Canadian high school teachers to Project Atmosphere
- Accredits consultants
- Endorses media weathercasters
- Publishes Atmosphere-Ocean (peer reviewed journal), CMOS Bulletin SCMO (bi-monthly), annual review, and Congress program/abstracts

Membership and Privileges

- All members have the same privileges but receive different publications.
- However, all members automatically receive at least the CMOS Bulletin SCMO and the Annual Review (on-line access).

Fees:

Regular member :	\$80
Sustaining member :	\$226 (receives all publications)
Corporate member :	\$160
Student member :	\$20 (receives ATMOSPHERE-OCEAN on-line only)
Retired member :	\$53
Associate member :	\$53

Upcoming Congresses:

- 2010 – Ottawa (joint with CGU)
- 2011 – Victoria BC

Last of all . . .

CMOS is our *own* Canadian society, and provides Canadian meteorologists, oceanographers, and related disciplines a *forum* for *direct contacts* with each other, through our membership, the CMOS web page, publications, and the annual Congress. No other society can provide the same benefits.

Support *your* society!
